

# TR200 T-RING

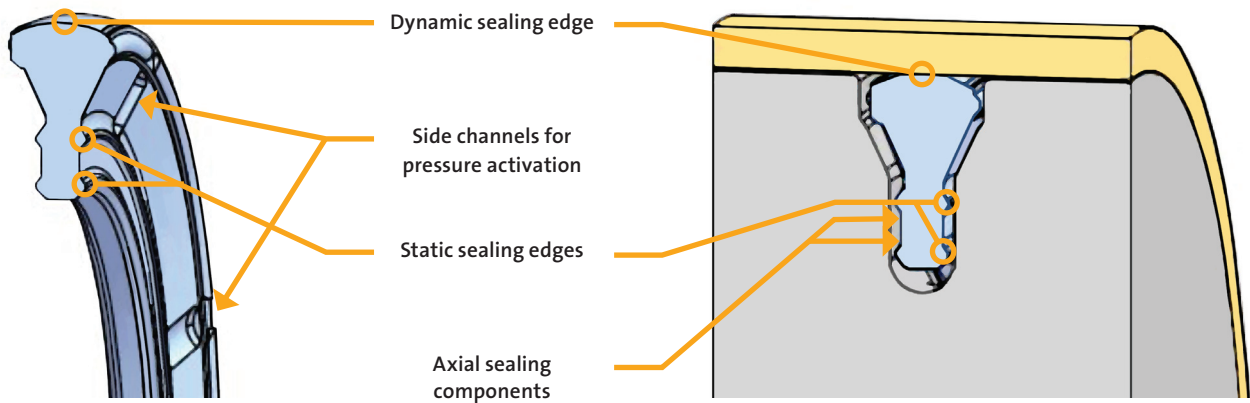

The Freudenberg Sealing Technologies TR200 T-Ring is an innovative actuating low-friction piston seal used in directional control valves for pneumatic cylinder applications.

**The TR200 seal provides:**

- Low friction with minimal wear
- Minimized slip-stick effect
- Excellent sealing function in a small housing
- Longer seal life with expanded maintenance intervals

## VALUES FOR THE CUSTOMER

- Low energy usage through reduced power loss
- Simple and safe installation
- Larger stroke length due to smaller installation space
- Double acting
- Smooth running performance at lower speeds with low breakaway pressure
- Extreme low friction with minimal wear
- Functional reliability
- Long service life
