**SIMRIZ® 501 AND SIMRIZ® Z7257**

**PREMIUM AEROSPACE**

**Simriz® 501 compound** is formulated to far exceed the requirements of AMS7257, resisting high temperatures up to 325°C and a broad range of harsh chemical environments including:

- Strong inorganic and organic acids
- Steam and water
- MIL-PRF-23699 HTS turbine lubricants after these lubricants start to degrade

With even greater performance results than the well-known Simriz® Z7257, Simriz® 501 marks our next generation Aerospace Simriz® material while providing continued availability of Simriz® Z7257.

**Both materials resist splitting at high squeeze** under high temperatures where most competitive products rupture under these conditions.

**Simriz® 501 success standards include:**

- Extensive testing beyond the requirements of AMS7257
- Out-performs competitive materials in O-ring compressive stress relaxation compared to all competitive materials based on customer testing
- Extensive flight testing in high temperature aerospace applications

**O-ring life: Flight hours at 300°C/572°F (continuous)**

- Simriz® 501
- Competitor 1
- Competitor 2

**VALUES FOR THE CUSTOMER**

- Without equal. Patented cross-linking system provides superior performance beyond the limits of every other competitor FFKM product
- Demonstrated performance. Successfully used in many customer applications
- Vertically integrated. Freudenberg-NOK Sealing Technologies is the only vertically integrated O-ring manufacturer in the world
- Cost efficient. As the only vertically integrated O-ring manufacturer down to the monomers Freudenberg-NOK Sealing Technologies is able to provide the most cost efficient FFKM O-rings

**TYPICAL APPLICATIONS**

- Bleed Air Management Systems
- Gas Turbine Lubrication Systems
- High Temperature Propulsion Units
- Control Devices utilizing strong oxidizers

Flight hours at 300°C before failure (x1000)
FEATURES AND BENEFITS

- Demonstrated performance advantages compared to competitive products, including extensive flight testing
- Produced in first NADCAP certified production
- Demonstrated performance in a variety of Aerospace applications
