ENX PLATFORM GTC

ENX PLATFORM GENERAL TERMS OF USE

I. SCOPE

ENX Association ("ENX") is the governance organization of the ENX Network ("Network") as well as the Trusted Information Security Assessment Exchange ("TISAX"). ENX provides participants with access to the Network, TISAX and further services of ENX (hereinafter collectively the "Services") via its web portal (collectively the "Platform"). The following General Terms of Use govern the use of the Platform by all users, in particular by responsible participants and their authorized employees ("Users") and supplement the relevant General Terms and Conditions of Participation and Terms & Conditions of the respective services, which shall prevail in the event of any contradictions.

II. OBLIGATIONS OF THE USER

1. Users may only use the Services and information made available via the Platform to the extent that knowledge and use of the data is necessary for the purposes of participation or use of the Services. The use is to be strictly in accordance with the "need-to-know" principle. Any other use for other professional or private purposes is prohibited.
2. The Platform may only be used for the intended purposes of the respective Services and not for the exchange of other information that is not related to the participation in the respective Services.
3. Use of the Platform is permitted exclusively via the login and access data provided. Users must ensure that unauthorized persons cannot access or spy on login or access data. The User shall keep login data protected from access by unauthorized persons and shall not make login data available to third parties or other unauthorized persons, unless otherwise permitted by ENX.
Each user is obligated to inform ENX immediately if it is suspected that unauthorized persons have or could have obtained access to login or access data and/or that access has been or could possibly be misused. The same applies if any other security breach and/or vulnerability becomes known.
Actions using the respective login data of a User are generally attributable to this User.
4. The User undertakes not to process, store, share, transmit, compile, make available, save or otherwise use files, data or other information with pornographic or similar content, content that violates the personal rights or privacy rights of third parties, incitements to violence, criminal or other laws, illegal content, potentially harmful computer programs such as viruses, Trojans or other potentially harmful software, or hyperlinks to sites, not to process, store, share, transmit, compile, make available, save or otherwise use via the Platform any content that does not comply with the aforementioned specifications, or to send messages to ENX or other Users with such content or to provide information on how to find it.
5. Users also undertake to use the Platform, the Services provided via it and the information that can be retrieved, in compliance with applicable law. If Users perceive that the use of the Platform does not comply with these General Terms of Use, the Terms and Conditions of Participation or other ethical standards, law and legislation, ENX must be informed immediately.

III. RIGHT OF THE PROVIDER IN CASE OF INFRINGEMENT

1. In the event of material violations of these General Terms of Use by the User, ENX has the right to restrict and/or withdraw the User's access rights to the Platform and/or the individual services. ENX may, at its own discretion, grant access rights to the affected User again, provided ENX considers the breach of duty and its direct or indirect consequences to have been sufficiently remedied.
2. The participant shall bear all costs associated with the restriction or withdrawal of access rights, including any associated costs of re-granting corresponding access rights.

IV. PROPERTY RIGHTS

1. In principle, all information, documents and other materials exchanged in the context of the use of the Platform shall be treated confidentially. The User shall treat all confidential information and, if applicable, information that is subject to a professional duty of confidentiality or protection of secrets and of which he obtains knowledge as confidential, shall not make it accessible to third parties and shall use it exclusively in accordance with the purpose of use.

The screenshot shows the ENX portal interface. At the top, there is a dark blue navigation bar with the ENX logo and links for 'ENX ASSOCIATION', 'NETWORK', and 'TISAX'. On the right side of this bar, it says 'TEST TEST'. Below the navigation bar, there is a 'SECURITY' section with a lock icon, containing links for 'Change Password' and 'Change Email'. To the right of this section is the 'Confirm Email' area, which includes a text box with an envelope icon and the text 'Check your email for confirmation instructions.' Below this text box is a 'Sent to:' label followed by a redacted email address.

- Nach der endgültigen Registrierung wird Ihr Unternehmen von ENX überprüft.
- Es kann bis zu fünf Tage dauern, bis Ihr Unternehmen verifiziert ist.
- Nach der Verifizierung sehen Sie eine Teilnehmer-ID neben Ihrem Firmennamen

1.2 Abfrage von TISAX Daten

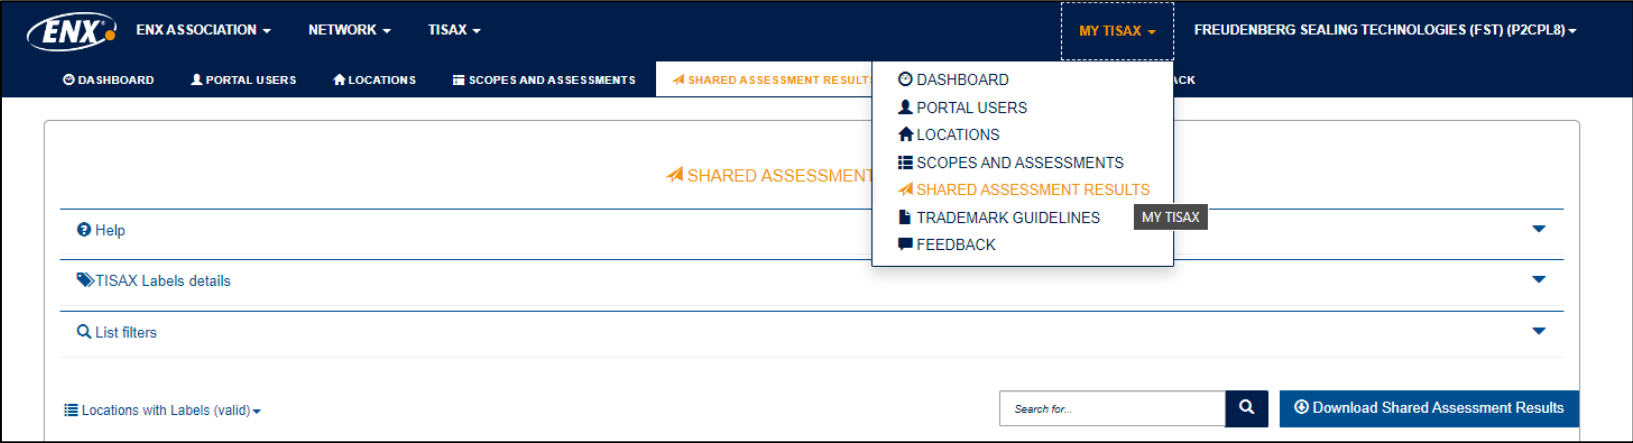

Schritt 1: Bitte melden Sie sich im ENX Portal an

The screenshot displays the ENX Association website. At the top, there is a dark blue navigation bar with the ENX logo and menu items: ENX ASSOCIATION, NETWORK, TISAX, and EN. A 'SIGN IN' button is located in the top right corner. The main content area features a large blue banner with the text 'WELCOME TO ENX ASSOCIATION'. Below this, there are two main sections: 'TISAX' and 'ENX NETWORK'. The TISAX section includes the TISAX logo, a description of the assessment and exchange mechanism, and 'Sign in' and 'Register' buttons. The ENX NETWORK section includes the ENX NETWORK logo, a description of the joint solution from the European automotive industry, and 'Sign in' and 'Register' buttons. A white sign-in overlay is positioned in the upper right, containing fields for 'Email' and 'Password', a 'Remember me?' checkbox, and 'Sign In' and 'Forgot Your Password?' buttons. A 'CONNECTED' badge is visible above the ENX NETWORK section.
